

Innovation Theatre

Showcasing Global Clean Energy Innovation and Inspiration

7 June 2017

Taking place as part of the

8th Clean Energy Ministerial & the 2nd Mission Innovation

China National Convention Center

Beijing, China

Theater Overview and Selection

The 8th Clean Energy Ministerial (CEM8) and 2nd Mission Innovation Ministerial (MI-2) will feature a new “TED Talks” style event, the Innovation Theater, to showcase new and potentially game-changing clean energy innovations and inspirations from China and around the world. The event will feature innovators, scientists, R&D leaders, and entrepreneurs from leading companies, research laboratories, and other organizations presenting on emerging clean energy topics. More than 350 clean energy professionals, including financial investors and incubators, will be invited to attend the Innovation Theater, along with global and Chinese media.

The acceptance of presenter applications will be based on relative merit and adherence to the following criteria:

- **Novelty**: Demonstrates an example of innovation that has yet to be widely adopted or diffused.
- **Impact**: The innovation’s potential for impact and scalability to accelerate global clean energy deployment or low-carbon development.
- **Intelligibility**: Proposals, even of a complex or technical nature, must articulate their value in easy to understand terms that are comprehensible to lay audiences.
- **Completeness of Application**: Application includes all required information and provides an accurate and thorough description of the technology to be presented.

Technology Exhibition

Innovative Technologies and Clean Energy Products From Around the Globe

6 – 8 June 2017

Taking place as part of the

8th Clean Energy Ministerial & the 2nd Mission Innovation

China National Convention Center

Beijing, China

Exhibition Overview and Selection

The 8th Clean Energy Ministerial (CEM8) and 2nd Mission Innovation Ministerial (MI-2) will feature a Clean Energy Technology Exhibition with companies and organizations from around the world exhibiting their innovative clean energy technologies, products and business models. The exhibition will cover six related sectors: renewable energy, energy-efficient technologies and facilities, energy storage technologies and facilities, digital energy and smart grid, electric vehicles and related technologies, and finance and business model innovation.

The acceptance of exhibitor applications will be based on relative merit and adherence to the following criteria:

- **Topicality:** Provides an example of innovation related to at least one of the six innovation areas identified above.
- **Impact:** The innovation's potential for impact and scalability to accelerate global clean energy deployment or low-carbon development.
- **Representative:** The exhibits can represent the leading technology in the relevant area.
- **Intelligibility:** Proposals, even of a complex or technical nature, must articulate their value in easy to understand terms that are comprehensible to lay audiences.
- **Completeness of Application:** Application includes all required information and provides an accurate and thorough description of the technology to be presented.
- **Sector and Geographic Diversity:** Diversity in exhibitors among the six technology sectors as well as geographic/country distribution.

*The organizers reserve the right for the final decision.
